The resolution was unanimously adopted.

The following message also having a bearing on the subject of volunteering, was received from the Mayor.

Mayor's OFFICE, New YORE, August 22, 1864.

To the Honorable the Holde of Surmayisons:—
Gentlemes—I have returned herewith the accompanying resolutions to pay substitutes for citizens of the county the sum of three hundred deliars each, and also providing for the furnishing of substitutes for one, two or three years respectively to the depositors of certain sums therein specified with the treasurer of the Volunteer Committee.

In my judgment the said resolutions are invalid for the want of an appropriation previously made to cover the payments c ntemplated therein in accordance with the provisions of section five of the act of April 15, 1857, organizing your bonorable body. The appropriation of \$2,000,000 under the ordinance of March 18, 1864, is for the purpose of obtaining generated the payments to substitutes or persons bringing substitutes, without infringing the section above alluded to.

A Vessel Loaded with Petrojeum on Fire In the East River.
PERRY BOATS AND THE RESCUE OF DROWNING PERSONS—DANGER TO OUR NATIONAL AND MERCAPTILE MARINE, ETC.
In bot unfrequently happens that persons are drowned

have been preserved had the ferry boats been supplied the collision of two ferry boats in a fog on the Hasi sort. Yesterday morning a vessel, loaded with some three hundred barrels of petroleum, caught fire while going-before the wind, which was very fresh, and with a strong tide, in the East river. In a few minutes the entire craft was enveloped in flames, and some of the care jumped overboard with such articles of support as they could selve. One leaped from the burning mass into the water with an oar, and another clung to the bowsprit, although the salls, even to the jib, were all in a biaze, until it struck the wharf at the Williamsburg ferry on the Long island side. During this time perhaps half a dozen ferry boats passed within two or three beats' lengths of the burning vessel and of the men in the water, but they could render no assistance for the water of the boats. Fortunately a small boat, providentially in the vicinity, was pulled directly towards the sinking men and they were picked upply each of their boats with a small and handy craft of some sort to be used in similar emergencies, otherwise they stood in great peril of meeting a watery grave. We again urge upon the ferry companies to supply each of their boats with a small and handy craft of some sort to be used in similar emergencies, otherwise they may have occasion to regret a want of attention to this timely admonition.

While touching upon this topic we repeat our former suggestions to the authorities respecting the sale keeping and transportation of inflammable and combustible materials like petroleum in the city and vicinity. It is but a short time since we chronicled the burning of an immense amount of property in Brooklyn, caused by a warehouse in which was stored a large amount of petroleum," unless the authorities adopt more stringent regulations respecting its care and contaging from from Petroleum," unless the authorities adopt more stringent regulations respecting its care and country while in this seighborhood. The safety of the shipping in the harbor, and especially of the national property in the Navy Yard, which was seriously menaced by the burning vessel yes-

One mast was water longed, lying partly on one side. Her hatches were off, Her cabin was shore deck. Her name as abeliay could not be read, only Sarah.
